Week 5, Message: October 27, 2015

***Cyber Security Awareness Month Wrap Up***

***Before an Incident Happens***

- If you do not have any anti-virus software installed on your computer or mobile device, choose and install reputable anti-virus software obtained from the official provider of that anti-virus package.
- Configure your system or device to automatically check for and install software updates for your operating system, anti-virus package, and other software – including software security patches.
- Make sure that you have an adequate, automated system backup process in place, and that the backups occur on a regular, scheduled basis.
- Final Message – Wrap up-Stop.Think.Connect Reminders <https://www.staysafeonline.org/ncsam/resources/stc-tips-and-advice>
